Pardon our dust

Recent GLRF website visitors may have noticed a major makeover. Yes, we're remodeling and the new look will be an interim redo while major renovations begin behind the scenes. We hope you'll find the pages easier to read and navigate. What's with the videos? We wanted to make the top-level pages a little less boring and also more informative. Want to nominate a new vid? Let us know! The [COMMUNITIES](#) page and the [NEDERLAND](#) page are two examples of where we're headed. To help build community, we're transforming the [ALL OARS message board](#) to bring rowers together at a local and regional level.

EuroGames 2008 cancels rowing

It came as a surprise and a big disappointment to many GLRF European rowers. When the EuroGames registration page launched on 21 Dec 2008, rowing had been replaced by a canoe event. We're working to develop an alternate rowing event and will let you know what happens. Catch up on the other happenings on our [LATEST NEWS page](#).
